

The chart displays the distribution of cash prices for five categories. The y-axis represents the count of items, ranging from 0 to 10. The x-axis lists the categories: BARWARE, COMPUTERS, GIRLSWEAR, MAKEUP, and TABLE LINEN. Each category has a central vertical line with horizontal bars extending to the left and right, representing the distribution of cash prices. The distribution for COMPUTERS is the most spread out, while the others are more concentrated.
