

The chart displays the distribution of cash\_price23 across six categories: BARWARE, COOKWARE, HI-FI, LUGGAGE, SERVICE, and TOYS. The y-axis represents the count of items, ranging from 0 to 100. Each category has a set of bars representing different price ranges. The distribution is highly skewed, with most items falling into the lowest price range (0-10) across all categories. The 'SERVICE' category has the highest count in the lowest price range, exceeding 100.

## COOKWARE

## LUGGAGE

## SERVICE
